

# Public Health Services and Programs

Clatsop County Public Health Department’s core functions are to assess, preserve, promote, and protect the health and wellness of all our residents. We provide a comprehensive system of care, ranging from advocacy and education to clinics. Our goal is to enhance the health of our community through various programs and services.

We work with a variety of community partners to continually assess and improve the health of our citizens and the wellness of our surrounding communities. All our services are confidential. We will not release any information about you without your written permission, except as required by law. It is our goal to provide you with the highest quality public health services and to earn your trust.

Seaside Library - WIC services only  
1131 Broadway, Seaside, Or 97138  
(503) 338-3637

**WIC Services are currently only available by phone**

## North County Services Available:

### Immunizations

Children, teens, adults

### Reproductive Health

Birth control for women and teens as well as emergency contraception, testing for infections, pregnancy testing, health education, and referrals. Male options such as condoms or vasectomy referrals are also available. These services are low-cost to individuals who meet income eligibility.

## **Communicable Disease Control**

Investigation, screening, and control of diseases that endanger the health of the community.

## **Environmental Health**

Inspections and enforcement of standards for food service, water purity, child daycare facilities, traveler accommodations, and certain public recreation facilities.

## **Health Promotion**

## **HIV Counseling and Testing**

Confidential HIV testing, counseling, and referrals.

## **Sexually Transmitted Infections**

Confidential testing and treatment for sexually transmitted diseases including HIV.

## **Health Information Referral and Outreach**

Public health nurses are available to answer your health questions and concerns.

## **Maternal Child Health**

Nursing services that promote the health of pregnant women, their babies, and children.

## **Women, Infants and Children (WIC)**

Nutrition education and supplemental food assistance to promote good health for pregnant, breastfeeding, and postpartum women, infants, and children to age 5.

## **Babies First!**

The public health nurse monitors your baby's growth, development, and health and advises you about nutrition, immunizations, and learning opportunities. The nurse also refers you to

programs and services that can help you. Babies First! is open to families with children from birth to 36 months old, regardless of income.

## **CaCoon (Care Coordination)**

The public health nurse provides services to children with special health needs from birth to 21 years old. The service is available to families regardless of income. The nurse makes home visits and reports findings to the child's primary doctor and specialists. The nurse works with your family's physician and other services to assist you with learning about your child's health and finding out about community resources to meet their health and medical needs.

## **Vital Statistics**

Birth certificates up to six months after the event.  
Death certificates up to six months after the event.  
Or contact Oregon Vital Records at (971) 673-1190.
