Clatsop County Lincoln Alerts Mobile App

Opt-in subscribers can download the "Everbridge – for Everbridge and Nixle Alerts" mobile app. The mobile app allows users to update their profile information, receive notifications through the app, and when requested provide critical information such as pictures of damages or assessments of the emergency event from the users perspective.

Opt-in Subscribers must have their user name and password handy for their first sign-in of the mobile app. The mobile app will then be connected to the users profile information in our Lincoln County Lincoln Alerts program. *If you frequently travel or live in a neighboring county you can access your profiles from both Counties. Columbia, Tillamook, and Washington counties all use the same emergency notification powered by Everbridge as Clatsop County does.

FEMA Preparedness App with National Weather Service Notices
- Alerts from the National Weather Service: Receive severe weather alerts for up to five locations across the U.S. and see information about how to stay safe.
- Disaster Reporter: Upload and share photos of damage and recovery efforts.
- Maps of disaster resources: Locate and receive driving directions to open shelters and disaster recovery centers.
- Apply for assistance: Easily access DisasterAssistance.gov to apply for federal disaster assistance.
- Custom emergency safety information: Save a custom list of the items in your family's emergency kit, as well as the places you will meet in case of an emergency.
- Safety tips: Receive safety and preparedness reminders and learn how to stay safe before, during, and after over 20 types of hazards, including floods, hurricanes, tornadoes and earthquakes.
- Information in Spanish: Easily toggle between English and Spanish for all features of the app.
