

WANTED: COVID Response Volunteers

Volunteering for Clatsop County's COVID Response Effort

If you are interested in volunteering to help at the COVID-19 vaccination clinics or in the Public Health Department's Public Information Call Center (PICC), please [click here to complete and submit your application](#). The minimum age to volunteer for the task force is 18, and you must be a Clatsop County resident.

Thirty-three volunteers are needed at every county vaccination clinic, and though medical staff is needed, there are many assignments that do not require medical training. There are also two 90-minute morning shifts and two two-hour afternoon shifts in the PICC (three to six people needed per shift!). Even just one shift per week makes a huge difference. [Apply to volunteer for the COVID task force now!](#)
