

Authorization Notice Guide-Septic Systems

An Authorization Notice is required for a number of proposed septic system activities including, but not limited to: adding bedrooms to a house, connecting a new/replacement house to an existing system, increasing sewage flow and/or waste strength to an existing system. The following exhibits are required in order to process your application.

An Authorization Notice is generally required when:

- Connecting or re-connecting to any **existing** septic system.
- Replacing one residence (mobile, manufactured or modular home, recreational vehicle, stick-built home) with another structure.
- Note: An Authorization Notice is not necessary when replacing a mobile home or RV with a similar mobile home or RV located within a lawful mobile home or RV park.
- Rebuilding or replacing any structure. This includes structures destroyed by fire or other natural disaster.
- Adding bedrooms or additional apartment facilities to an existing dwelling. *Sometimes*, an Authorization Notice is not needed when making additions to a home. Check with an onsite agent to find out if you need an Authorization Notice for your proposed additions.
- Personal Hardship: Connecting an additional dwelling to an existing system. This allows temporary housing for a family member suffering from personal hardship or for an individual providing care for such person for up to five (5) years.
- Personal hardship may be authorized for up to five (5) years and it may be granted for additional extensions. Temporary placement may be authorized for a family member in need for up to two (2) years maximum, no extension allowed. Approval by the Clatsop County Planning Department is required.
- Any proposed change in use results in an increase to either sewage flow or waste strength.
- Some of the given situations may require changes to the septic system. You will be advised on how to proceed if, based on your application, it is determined that you will have to change your septic system.
- An Authorization Notice is usually **not** needed if you are adding more square footage, garages, etc. and **not** increasing the number of bedrooms. However, a local building or planning department may require you to obtain a Land Use Review.

Items required to process your application:

1. **Application form and fee:** Please make sure your application is complete. Incomplete applications cannot be accepted and will be returned.
2. **Vicinity/locator map:** Show how to get to your property using an 8½ by 11 sheet of white paper. Please describe in writing how to find your property and flag the entrance if it's hard to find. If you have a large parcel, show or sketch how to find the septic system area.
3. **Detailed site plan:** Draw a site plan from actual measurements of the existing septic tank and disposal field (leach field). Draw any proposed improvements or changes, for example new bedroom additions mobile home placement, etc. In addition, show the location of all existing and proposed buildings, roads, driveways property lines, easements springs, wells, lakes, ponds, rivers, streams, drainage areas and other physical features.
4. **Tax lot map:** This map may be obtained at the local county assessor's office or planning department or online at <http://www.co.clatsop.or.us>.
5. **Notice Authorizing Representative Form:** Required if someone other than the property owner is submitting the application.
6. **Land use compatibility statement:** This **must** be signed by your county and/or city planning department.
7. **Existing septic system description:** Fill out the Existing Septic System Description Form as completely as possible and to the best of your knowledge.
8. **Site preparation:** Call the Clatsop County Public Health Department *before* uncovering any portion of your system if your system was installed under a permit and a Certificate of Satisfactory Completion was issued. Otherwise, uncover the septic tank lids (**do not remove the lids**), the inlet and outlet connections to the tank, and the distribution box or drop boxes. Stake the ends of the disposal trenches.

Be careful not to damage any system components when digging. **We suggest the use of a metal or fiberglass rod for locating the tank and boxes before digging.**

9. Please include your name, township, range, section and tax account number on all submitted paperwork, maps and drawings. Submit applications, fees and attachments to:

Land Use Compatibility Statement (LUCS) For Onsite Wastewater Treatment System Permits

WHAT IS A LUCS? The Land Use Compatibility Statement is the process used to determine whether Onsite Wastewater Treatment permits and other approvals affecting land use are consistent with local government comprehensive plans. The LUCS form is included in the onsite permit application approval packet.

WHY IS A LUCS REQUIRED? Oregon law requires activities that impact land use be consistent with local comprehensive plans and land use regulations. Oregon Administrative Rules (OAR) Chapter 340, Division 28 identifies activities or programs that significantly affect land use and the process for ensuring consistency.

WHEN IS A LUCS REQUIRED? A LUCS is required for nearly all Onsite Wastewater Treatment permits, registrations under general permits, and certain other approvals and certifications that affect land use. **The attached form applies only to onsite wastewater treatment system permits and activities. WPCF applicants must complete a General LUCS Form.**

HOW TO COMPLETE A LUCS:

Step	Who Does It	What Happens
1	Applicant	Completes Section 1 of the LUCS and submit it to the county planning office.
2	City or County Planning Office	Completes Section 2 of the LUCS by determining if the activity or use meets all local planning requirements, and returns to the applicant the signed and dated LUCS form with findings of fact for any local reviews or necessary planning approvals.
3	Applicant	Includes the completed LUCS with findings of fact with the permit or approval submittal application to the county.

A permit cannot be issued if the proposed facility does not comply with all applicable local land use requirements. The applicant is responsible for working with the local planning office to comply with land use requirements.

CULTURAL RESOURCES PROTECTION LAWS: Applicants involved in ground-disturbing activities should be aware of federal and state cultural resources protection laws. ORS 358.920 prohibits the excavation, injury, destruction, or alteration of an archeological site or object, or removal of archeological objects from public and private lands without an archeological permit issued by the State Historic Preservation Office. 16 USC 470. Section 106, National Historic Preservation Act of 1966 requires a federal agency, prior to any undertaking, to take into account the effect of the undertaking that is included on or eligible for inclusion in the National Register. For further information, contact the State Historic Preservation Office at 503-378-4168, extension 232.

SECTION 1 – TO BE COMPLETED BY APPLICANT

1. Applicant Name/Property Owner: _____
Mailing Address: _____
City/State/Zip: _____
Telephone: _____
2. Property Information:
County: _____ Tax Lot No: _____
Township: _____ Range: _____ Section: _____
Physical Address: _____
Block: _____ Lot: _____
Subdivision Name (if applicable): _____
3. This proposed facility is for:
 An individual, single family dwelling
 Describe the type of development, business or facility and the provided services or products: _____

4. Permit or approval being requested:
 Construction-Installation permit for: New Construction Repair Alteration
 Non-water-carried facility requests (for example, pit, privy/vault toilet for campgrounds)
 Authorization Notice for: Replacement of dwelling Bedroom Addition
 Other changes in land use involving potential sewage flow increases

SECTION 2 – TO BE COMPLETED BY CITY OR COUNTY PLANNING OFFICIAL

5. Property Zoning: _____ Zoning Minimum Parcel Size _____
6. The facility is located: inside city limits inside UGB outside UGB
7. Does the proposed facility comply with all applicable local land use requirements: Yes No
- If you answered "Yes" above, was this compliance based on:
 Compliance with local comprehensive plans and land use requirements (provide a citation to the applicable provisions)
 Conditional approval (provide findings and citation or attach a copy of the applicable land use decision)
 Measure 49 waiver (provide Department of Land Conservation and Development approval number)
Either provide reasons for affirmative compliance decision or attach findings of fact: _____

8. Planning Official Signature: _____
Print Name: _____ Date: _____
Title: _____ Telephone: _____

Existing Septic System Description

Please answer the following questions as completely as possible, and to the best of your knowledge.

1. Your existing septic system consists of (check all that apply):
 Septic Tank Disposal Trenches Capping Fill Sand Filter
 Seepage Bed Cesspool or Pit Unknown
 Other (describe): _____
2. When was your septic system installed? _____
Date Permit Number
3. Tank material: Concrete Steel Plastic or Fiberglass Unknown
4. Septic tank volume (in gallons): _____
5. When was the septic tank last pumped? (Attach receipt if available) _____
6. Number of disposal trenches: _____
7. Total length of disposal trenches (in feet): _____
8. Do you propose to use the existing septic system? Yes No
9. Is your septic system currently in use? Yes No
If no, date of last use: _____
10. If the septic system currently serves a dwelling,
How many bedrooms in the dwelling? _____ How many people occupy the dwelling? _____
11. How many bedrooms will be in the proposed dwelling? _____ How many occupants? _____
12. If the septic system serves a business,
How many total employees are there? _____ Type of business: _____
13. Is there a proposed change of use of your structure (home or business)? Yes No
If yes, please explain: _____

14. Provide a plot plan (sketch) on the reverse side of this form showing the best estimated or actual measurements that locate the existing septic tank and disposal trenches, property lines, easements, existing structures, driveways, and water supply. Indicate the direction north. If you are proposing to replace the septic system, indicate the test hole location.

By my signature, I certify that the above information and the plot plan on the reverse side of this form are accurate and true to the best of my knowledge.
